

Shipment Tracking URL Query

Below is the URL and query string you can use to link directly to the shipment tracking response page on our web site.

Note: There are underscores where blanks may appear if your email underlines the link.

The last 8 digits is the New Penn pro or Pickup label number. Your web page will simply put the tracking number into the last 8 digits and it presents the tracking results page from our site. You may have a number that has 9 digits. The last digit is a check digit so just use the first 8.

The max length of the "tracking_no" field is **25** characters. Extra characters are flagged as errors.

BY NEWPENN PRO/LBL#:

URL without New Penn frame....

http://www.newpenn.com/npweb/tracking.txt/process?tracking_no_1=12345678

where 12345678 is a pro #.
